Kyiv, Ukraine

## TECH SKILLS

- JavaScript
- React
- Angular CLI
- Node.js | NestJS
- TypeScript
- REST API | Docker | Git
- PostgreSQL | MongoDB
- HTML5 | CSS3 | SCSS

## EDUCATION

- **GoIT** | Fullstack Developer  
2024 - 2025
- **PSACEA** | [Master's degree](#),  
[Industrial and Civil](#)  
[Engineering](#)  
2010 - 2015

## LANGUAGES

- English (Intermediate)
- Ukrainian (Native)

## SUMMARY

I'm a Trainee/Junior Front-end Developer with a passion for problem-solving and continuous learning. I'm eager to grow into a full-stack developer and collaborate with a dynamic team to build impactful projects that make a difference.

## PROJECT EXPERIENCE

- **Meduzzen Internship**  
**Front, [Link](#) (Angular, TypeScript, NgRx, RxJS, Docker, Auth0, GCP) Back, [Link](#) (NestJS, PostgreSQL, TypeORM, Docker, Git, Auth0, Docker Compose, Render)**  
Built a full-stack web app with Angular, NestJS and PostgreSQL. Implemented Auth0 and JWT auth, CRUD with validation, protected routes, NgRx state, reusable UI and Docker setup. **Individual project.**
- **DevOps, [Link](#) (GitHub, Bash, Docker, CI/CD)** A UNIX-like virtual environment (**Ubuntu 24.04**) was set up using VirtualBox with Docker, Terraform, GitHub CLI, and AWS CLI pre-installed.
- **Robot Blaze Dash Adventure, [Link](#) (HTML, CSS/SCSS, JavaScript)** A collaboratively developed promotional landing page for a mobile game. The page highlights the game's features, includes legal documentation, and is designed to match the app's design. **Team project.**

## WORK EXPERIENCE

### Meduzzen | Internship

january 2025 - may 2025

Full-Stack/DevOps

- Collaborated on backend development using NestJS and TypeORM to implement authentication, authorization, and CRUD functionalities, including user and company management.
- Worked on front-end development using Angular to create dynamic pages, manage state with NgRx, and implement features like pagination, form validation, and routing.
- Managed deployment and environment configurations, using tools like Docker and Render to deploy the application and ensure smooth integration between the frontend and backend.

### EVOPLAY | Internship

april 2025

Frontend Developer

- Developed a responsive landing page based on UI/UX design (desktop 1200px+, mobile version 320px).
- Implemented static pages.
- Created a cookie popup with ACCEPT / DECLINE button functionality.
- Integrated favicons and meta tags for SEO optimization.
- Ensured stylistic consistency with the game's visual identity: fonts, colors, characters, and interface elements.
